RE: Super Ferritic Stainless Steel Chromium Surcharge Change

To: Our Valued Customers:

Effective with shipments January 1, 2007, ATI Allegheny Ludlum is adding a chromium premium component of \$0.15/lb to the surcharge calculation for Super Ferritic Stainless Steel grades AL 29-4C®, 4466 and 458. This change is being implemented to help offset the escalating costs of the premium quality chromium required to produce these unique alloys. All other components of the surcharge remain in effect, as described on our website [www.alleghenyludlum.com](http://www.alleghenyludlum.com).

Thank you for your continued business and support. If you have any questions, please contact your ATI Allegheny Ludlum sales representative.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Thomas P. DeLuca".
