RE: Price Announcement

To our valued customers:

Effective with shipments beginning on Monday, August 7, 2006, ATI Allegheny Ludlum Specialty Plate is increasing net transaction prices for 300 series alloys (PMP) by approximately 5%. In addition, net transaction prices for 400 series alloys (PMP) are increasing by approximately 10%.

The increases are being achieved by increasing base prices per the attached Stainless PMP Price Schedule. Types 303, 403, and 405 have been removed from the schedule and will be handled on an individual inquiry basis.

These increases are necessary to support continued capital investments and growth.

All surcharges remain in effect as described on our website at www.alleghenyludlum.com. Acknowledged orders cannot be cancelled.

We appreciate your continued support as we implement these price increases. Please contact your ATI Allegheny Ludlum sales representative for further details.

Sincerely yours,

Jeffrey H. Thompson
